## QHSE Manager

---

### Our Purpose

More and more the world is realizing that we need to preserve our planet and that it requires a much more sustainable approach on agriculture. Also, the world deserves access to healthy food.

Our mission is to provide a sustainable taste anywhere.

Therefore, we design, build and operate tailor made horticultural solutions for our clients, with a reduced footprint in natural resources, water, CO2 and pesticides. We continuously invest in R&D to strengthen our propositions. This vision allows us to operate our business successfully for a better future.

### Our Values

We think and act responsibly for our environment and are committed to realize a sustainable solution for every project. We are curious and with our passion for technology we are determined to advance the industry. We listen to the demands of our clients, are committed to project result and have fun along the way. We take initiative and like to be challenged. And, we act as a team and assure our clients can continue to rely on our qualitative work.

At Van der Hoeven Horticultural Projects you will be working in a professional, fast-growing and collegial organization realizing horticultural projects both in the Netherlands and abroad

### The role: QHSE Manager

Your main objective is to ensure safe and qualitative operations for our horticultural projects. You will report directly to the CEO. More specifically you will;

- Improve the Safety and Quality plans of Van der Hoeven
- Take lead in project preparation of specific procedures and instructions as required in co-operation with Project Manager
- Coordinate with Project Managers on QHSE project performance
- Execute project site inspections
- Communicate with the organization about quality, health and safety matters
- Manage the QHSE team
- Liaise with Van der Hoeven Management Team on company QHSE performance and development

### Your profile

You are a self-starter, result oriented and resilient when required. Proven project QHSE skills is a must. You lead by example and are committed to project result. Skills required;

- Experience in leading a QHSE team
- 5 years of relevant experience in construction management
- HBO education in relevant safety field
- Experience in horticulture is a pre
- A candid team player who collaborates with colleagues to solve problems
- Willingness to travel to projects (globally) when deemed required
