

Job offer

Project QHSE Coordinator (Saudi Arabia)

Our Purpose

More and more the world is realizing that we need to preserve our planet and that it requires a much more sustainable approach on agriculture. Also, the world deserves access to healthy food. Our mission is to provide a sustainable taste everywhere. Therefore, we design, build and operate tailor made horticultural solutions for our customers, with a reduced footprint in natural resources, water, CO2 and pesticides. We continuously invest in R&D to strengthen our propositions towards our customers. This vision allows us to operate our business successfully for a better future.

Our Values

We think and act responsibly for our environment and are committed to realize a sustainable solution for every project. We are curious and with our passion for technology we are determined to advance the industry. We listen to the demands of our clients, are committed to project result and have fun along the way. We take initiative and like to be challenged. And, we act as a team and assure our clients can continue to rely on our qualitative work. At Van der Hoeven Horticultural Projects you will be working in a professional, fast-growing and collegial organization realizing horticultural projects both in the Netherlands and abroad.

The role: Project QHSE Coordinator (Saudi Arabia)

Your main objective is to ensure safe and qualitative operations for horticultural projects in the Kingdom of Saudi Arabia (KSA). You will report to the Project Director. More specifically you will be held accountable for;

- Developing and maintaining statistical data and report on a weekly basis (LTI/LTA)
- Ensuring that WSP health & safety and environmental policies are upheld
- Participating in and leading H&S site inspections independently and as part of a joint safety tour with the Contractor and the Client's management team
- Acting as the primary interface between the Contractor's QHSE and the Client's QHSE management teams
- Quality and Safety Plans
- Liaising with Project Team (Engineering, Procurement and Construction functions, and others as required) to maintain and improve awareness of project safety and quality protocols
- Coordinating with MODON/GAMEP and other authorities in KSA related to health safety as required

Your profile?

We would expect a solid QHSE background. You are a self-starter, result oriented and resilient when required. Proven QHSE skills in KSA is a must. You lead by example and are committed to project results. Requirements;

- Experience in with In-Kingdom HSE organizations.
- Degree qualified with minimum 5 years relevant experience in construction management
- KSA QHSE experience a must
- NEBOSH Diploma or equivalent is a plus
- A candid team player who collaborates with colleagues to solve problems
- Willingness to travel to KSA when deemed required
