

In a world where sustainably grown crops are paramount, the demand for high-tech greenhouse keeps growing. A challenge which embodies what Van der Hoeven represents. Since 1953 we have been designing and building horticultural projects around the globe which allow growers and investors to maximize the return on their investment. We offer crop consultancy where needed and after sales service is one of our main priorities. This allows us to form long lasting relationships with our clients of which we are proud.

Every day we work with a team of professionals to optimize our projects and to develop new systems. Always keeping in mind our main goal: custom designed projects for our clients, tailored to meet their every requirement.

Due to expansion we are seeking an accomplished **Project Manager**

In this challenging position you will take a central role as soon as a project has been sold, from contract supervision to the implementation and delivery of our international projects. Your focus will lie on the timely and efficient realization of predominantly turnkey projects which require decisive management. During the project period you will have continuous control over all the arrangements and challenges and you will be able to judge what is important to ensure the project's success. You will have frequent contact with the client, subcontractors, suppliers and the internal organization, and will coordinate the communication between parties and the work to be conducted. You will safeguard the progress, quality and budgeting of the project and ensure a correct project administration.

The job profile:

- Completed HBO (Higher Professional Education) diploma, preferably in the technical field
- Minimum 5 years' experience working in a technical project environment
- Good verbal and written command of Dutch and English
- Client-focused and result-oriented
- Structured
- Solution-oriented
- A flexible and positive attitude
- Willingness to travel frequently

Van der Hoeven is offering a varied position with leeway to use your own initiative. The organizational culture is down-to-earth, pragmatic and engaged. The position naturally goes hand in hand with an appropriate benefits package.
